EDUCATION

U. NACIONAL DEL CALLAO

Bachelor in Systems Engineering

Dec 2015 | Lima, Peru

Top 5% of my class

Internal College Coding Contest - 1st place winner

CERTIFICATIONS

SAP Fiori Development, 2017 (C_FIORDEV_20)

OTHER COURSES

Online - Universitat Politècnica de Valencia:

Mobile Application Programming

Online - MIT edX:

Introduction to Computer Science and Programming

Online - Berkeley edX: Foundations of Computer Graphics

SKILLS

TECHNOLOGIES

- **Expert:** Node.js / Typescript / Javascript / NestJS / Express / REST APIs / Microservices / Git
- **Proficient:** TypeORM / AWS Lambda / AWS S3 / AWS EventBridge / AWS CloudWatch / DynamoDB / Redis / AWS KMS / MySQL / PostgreSQL / Python / React Native (Expo)
- **Familiar:** GraphQL / Prisma ORM / AWS EKS / AWS EC2 / CSS / Microsoft Luis.AI / Apollo GraphQL / Bash scripts / Java / C++ / Matlab / LaTeX

KNOWLEDGE

- **Others:** Design Patterns / Hexagonal Architecture / Clean Architecture / MASA Architecture / Unit, Integration, Mutation Testing / CI/CD / Jenkins / Helm / JFrog Artifactory / Git Flow / GitLab / GitHub

SAP RELATED

- **Expert:** SAP BTP (SCP) Admin. / BTP Portal / BTP Workflow / ABAP / Cloud Foundry / SAP OData Gateway / UI5 / CAP (Node.js) / BTP Process Integration / SAP HANA DB / HANA Cloud / BTP Mobile Services / HDI Deployment
- **Familiar:** BTP IoT / SAP MDK

EXPERIENCE

GLOBALANT | Software Developer

Dec 2021 – Current | Lima, PE

- Worked on a new Digital Bank developing backend microservices in Node.js and deployed with AWS EKS following Clean Architecture practices.
- Developed reports in Node.js using streams to handle a large amount of data and S3 to upload them. Deployed with AWS Lambda.
- Used technologies like GraphQL, DynamoDB, AWS Secret Manager, PostgreSQL, Redis, and encryption (AWS KMS).

NTT DATA EUROPE & LATAM | SAP Cloud Technical Leader

April 2017 – Dec 2021 | Lima, PE

- Designed the architecture of solutions implemented in SAP Cloud Platform (SAP BTP).
- Mentored as technical leader a SAP Cloud Platform development team (15 developers) in edge SAP technologies.
- In charge of SAP Cloud Platform administration (service instantiation, deployments, authorizations, licensing) and HANA Cloud administration.
- Implemented best practices for solution development across different technologies (frontend and backend).
- Developed and designed solutions with different technologies (Frontend: Javascript, UI5, React / Backend: Node.js, Java, Groovy / Database: HANA XS, HANA Cloud, MySQL).
- Developed and designed integrations with SAP Cloud Integration (REST, OData, RFC, IDOCs).
- Developed and configured solutions using SAP BTP services: CAP, iRPA, Workflow, Identity Authentication, Custom Domain, Business Application Studio, Portal, Launchpad, Conversational AI, Logging, Credential Store, Document Service, Mobile services and IoT.

CHAIN SERVICES TI | SAP ABAP & Cloud Consultant

Sep 2014 – March 2017 | Lima, PE

- Designed and developed ABAP solutions across different technologies: ABAP OOP, ALVs, Smartforms, Batch Inputs, etc. and across different modules: FI, SD, MM, PP, BW, BPC.
- Developed ABAP integrations with external systems (REST, SOAP, RFC).
- Developed solutions with different technologies: UI5, SAP Cloud Platform, Arduino IDE, etc.
- Participated in a SAP roll-out project as ABAP developer for multiple countries.
